

The re-launched **PROFILE** brand from Salon System kicks off with Soak Off UV Gel in 12 glorious colours.

Shielding natural nails to protect and promote healthy growth, the gel doesn't require primers, excessive buffing or filing and is removed using foil finger tip parcels without causing any damage.

The kit comprises Prep+Wipe; Remover; Clear Gel (used as a base and top coat with colour, or on its own for super glossy shine over natural nails, protecting them as they grow); and self-levelling Colour Gel.
