

## A LOOK AT THE LATEST LINES

### DUST BUSTER

Promising no crystallisation, Profile Acrylic System features clear, pink and white powders, and is described by **Salon System** as 'an easy-flowing formula, combined with an ultimately smooth finish' – meaning less dust from filing and buffing. Also available is the Color Kit, which is said to contain every shade you'll need to create individual nail designs, along with custom-colour blending according to nail condition and skin tone.
